

Oregon and Gale... partnering with you

Find the Oregon School Library Information System (OSLIS) at www.oslis.org. Designed for K-12 students and educators, this site integrates information literacy skills with access to licensed periodicals databases.

OSLIS is a project of the Oregon Association of School Libraries (OASL) and the Oregon State Library.

Because this project is funded through the Institute of Museum and Library Services (IMLS), these resources are available statewide at no cost to your school or district.

You have access to the following Gale resources and more:

K-5 and Middle School

Kids InfoBits — Engaging, age-appropriate, and curriculum-related content targets the needs of K-5 students.

National Geographic Kids — Provides reputable, authoritative and appropriate articles, eBooks and images that bring K-8 students the world of science, nature, culture, archaeology and space in a fun and substantive way.

InfoTrac Junior Edition — Full-text content from acclaimed periodicals and UXL reference series offers coverage of middle school subjects and eliminates guesswork from student research. NOTE: During the summer, this database will be merged with three others not featured here. The yet-to-be-named new product will replace *InfoTrac Junior* and will use the same interface as *Student Resources In Context*.

Educators

Educator's Reference Complete — Instant access to more than 1,100 periodicals and journals covering education subjects from preschool to college.

Ask your library staff for access or contact
the School Library Consultant at the Oregon
State Library: jennifer.maurer@state.or.us

Middle and High School

Student Resources In Context — Designed to meet the general research needs of middle and high schoolers, this resource offers primary documents, subject overviews, critical essays, biographies, multimedia and millions of articles from reliable magazines, newspapers, journals and reference books.

Opposing Viewpoints In Context — Helps middle and high school students draw informed conclusions with both-sides perspectives on today's hot issues and enduring controversies.

U.S. History In Context — Designed for middle and high schoolers, this offers the same types of resources and database interface as *Student Resources In Context* but with a focus on American history.

InfoTrac Student Edition — Full-text titles, including major periodicals and acclaimed Gale references, support the high school curriculum.

GREENR — Offers a Web-like experience for upper-level high schoolers studying environmental and sustainability issues.

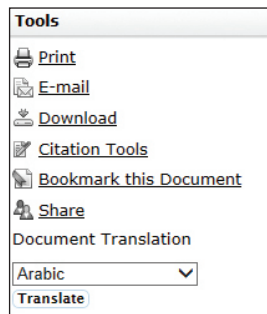

Gale Virtual Reference Library — Student-focused eBooks from Gale and a host of premier publishing partners cover a wide range of curricular topics.

Gale PowerSearch... now more appealing and more empowering

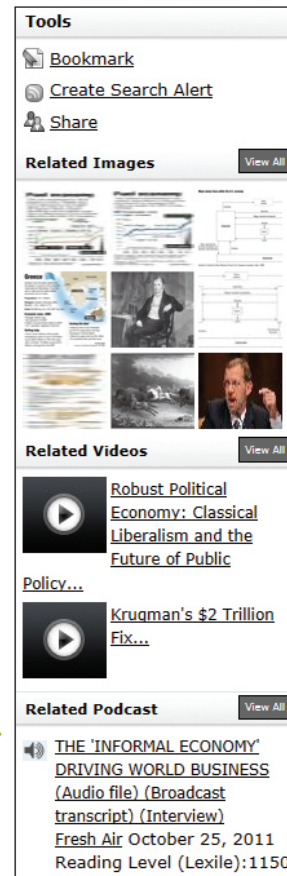

Adopted by more than 70,000 public, academic, K-12 and special libraries, *Gale PowerSearch* now has enhanced features:

- User-friendly homepage makes it easy to find informational text
- Sharing tools, including Delicious, MySpace, Reddit, Digg, Facebook, Newsvine and more
- Individual account profiles – save any search, receive search alerts when new content is available, making staying on top of the latest research a snap
- Enhanced search results that incorporate context-sensitive multimedia – images, videos and podcasts
- On-demand translation of documents in up to 11 languages, including Russian, Arabic and Spanish
- ReadSpeaker technology reads articles aloud, which assists struggling readers and helps develop listening skills
- Every article is available for download in MP3 format, allowing researchers to listen to content on the go through devices such as an iPod
- Simplified browsing through Gale's more than 20,000 publications

Documents display with several tools to manage the information you retrieve, including the ability to download an audio version of the document in MP3 format and the ability to share information using a variety of social media platforms

Enhanced search results incorporate context-sensitive multimedia, including images, videos and podcasts

PARTNERSHIP FOR
21ST CENTURY SKILLS

Gale, part of Cengage Learning, is a member of the Partnership for 21st Century Skills, which is the leading national advocacy organization focused on infusing 21st century skills into education. The Partnership brings together the business community, education leaders and policymakers to define a powerful vision for 21st century education to ensure each child's success as a 21st century citizen and worker. The Partnership and Gale encourage schools, districts and states to advocate for the infusion of 21st century skills into education and provide tools and resources that help facilitate and drive change.
