

“Inclusion enhances self-esteem and promotes acceptance, understanding, and friendship. Communities in which all children and youth are included are healthier, more balanced, and beneficial for all members.”

—Kristen Zechello

The outdoor play facility is just one of many areas where your child can seek adventure. With plenty of space to exercise and explore, preschool aged children are able to make strides both physically and cognitively.

We are teachers, but first and foremost we are advocates for your child's future.

Welcome to Little Learners Toddler Group!

Little Learners is a classroom experience specifically designed with the 24 to 36 month child in mind. Children love to explore the many areas of our classroom where they will learn, laugh, discover, and imagine. Here is where they find friends and engaging activities while learning to share and communicate with others. Toddler groups are small. The ratio of highly trained staff to children offers one-on-one guidance within a predictable daily routine fostering independence and an "I can do it" attitude.

"The primary goal of education is to create people who are capable of doing new things, not simply repeating what other generations have done—people who are creative, inventive and discoverers."

Jean Piaget

Our mission: To work in partnership with families, building relationships and building skills for young children of all abilities.
