Read This Important Information First

DO NOT share access codes with students.

Access codes are for teachers only and allow teachers access to **instructor-only** resources. Located within the Instructor tab, resources include source files, answer keys, and assessments.

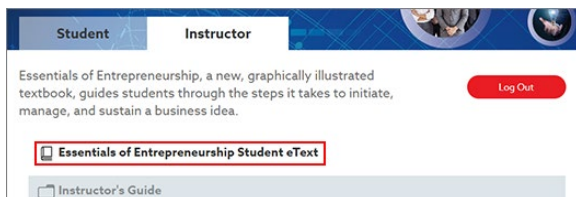

Students have open access to student resources.

Located within the **Student tab**, student resources do not require an access code and are available without logging in.

Some titles do not have student resources.

Some student resources are only available from the **Instructor tab** and must be distributed to students by the teacher as needed.

The eText is available from the Instructor tab.

Teachers may distribute the complete eText to their students. However, according to our Terms of Use, you agree to not share or distribute any of our resources beyond a secure, school-sanctioned domain and/or network, such as your school's secure LMS or your Google Classroom.

How many teachers and students can use the free digital resources?

We've made access unlimited. However, we respectfully request that resources are housed on a private, secure domain. Housing our resources on a publicly accessible environment is strictly prohibited.

Extend your EduTyping free trial subscription.

EduTyping users can request an extension to their free trial period as well as request more student licenses by logging into the **Instructor Portal**, clicking **Account**, and then clicking **Renew Your License** or **Add Additional Licenses**.
