ROUND TABLE:

- Susan Sprague talked about issues at the Franquette building. Need to be aware that the neighborhood is not the best and to be cautious when walking outside the building. There have been transients and drug paraphernalia that staff has had to deal with. Daniel suggested reaching out to the Medford Police Department to inquire as to what their expectations are as to when to call and not to call. Diane Dunas was looking into meeting with Pathways to discuss auxiliary services so staff does not need to deal with these types of issues.
- Susan also let us know the material that was put on the windows is working nicely. The windows have been hit numerous times and have not broken yet.
- The exterior doors at the Franquette building need to be looked at as far as how they close and lock if a student runs out of the building.
- Interior doors need to be looked at because they are hollow and students have kicked holes in them.
- The fence needs to be looked at because there is a way for transients to squeeze through.
