

Intro to High Tech Tools for Schools

From the SOESD Lending Library

This FREE, student-centered, teacher-friendly professional development opportunity, which is being offered once a month through May, introduces educators to the SOESD STEAM Lending Library. Alli French of Talent Maker City will provide participants with an engaging, hands-on introduction to everything in the STEAM Lending Library—including SNAP circuit kits, Makey Makeys, laser engravers, 3D printers, green screens, and Lego robotics. Please join us for a day of play and learn how to incorporate some of these new and FREE educator tools into your classroom, courtesy of SOESD.

Monday October 28th, 2019 1 to 4 p.m.

Instructor: Alli French
Location: Talent Maker City
