### **About American Fidelity**

Since 1960, American Fidelity has focused on providing a different opinion for school districts and currently serves 4,300 districts across the country.

#### **Schools are Unique**

With special pay modes, generous sick leave, unfunded mandates, and more – schools have unique needs that may not be met with a generic benefits plan made for private corporations. Yet with all your uniqueness, you may be working with a generalized benefits provider who has limited knowledge of your specific circumstances.

#### **American Fidelity is the Carrier and Provider**

American Fidelity is both the carrier and benefits provider. This is an important benefit to education professionals because it allows us to better manage your benefits education, enrollment, costs, and interaction with your employees. By using one provider, your employees also benefit from using a single online portal to file claims and manage their accounts.
